

NOTABILITY

BACKING UP TO GOOGLE DRIVE

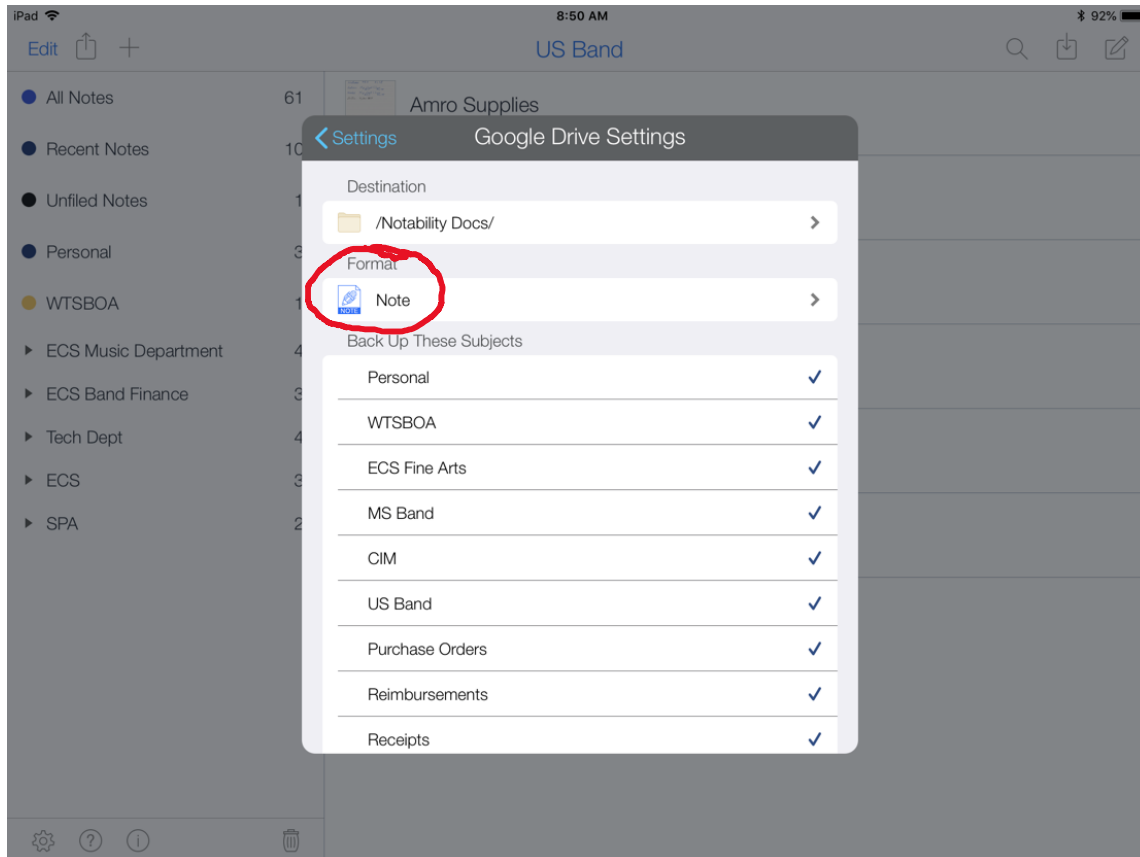

1) Open notability and click Settings in the bottom left-hand corner.

2) Then select Auto-backup, followed by Google Drive.

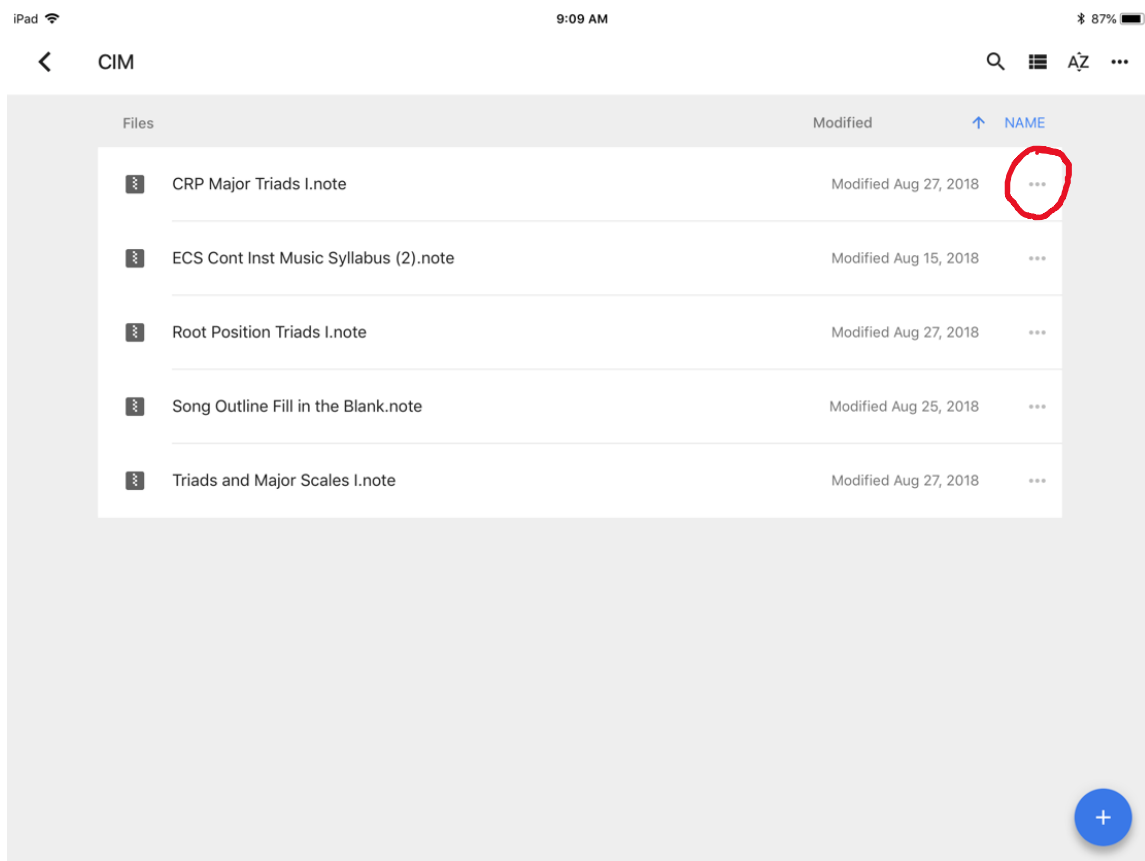

3) After signing in with your “myecseagles.com” username and password, click the Google Drive settings button and change the format option from PDF to Note.

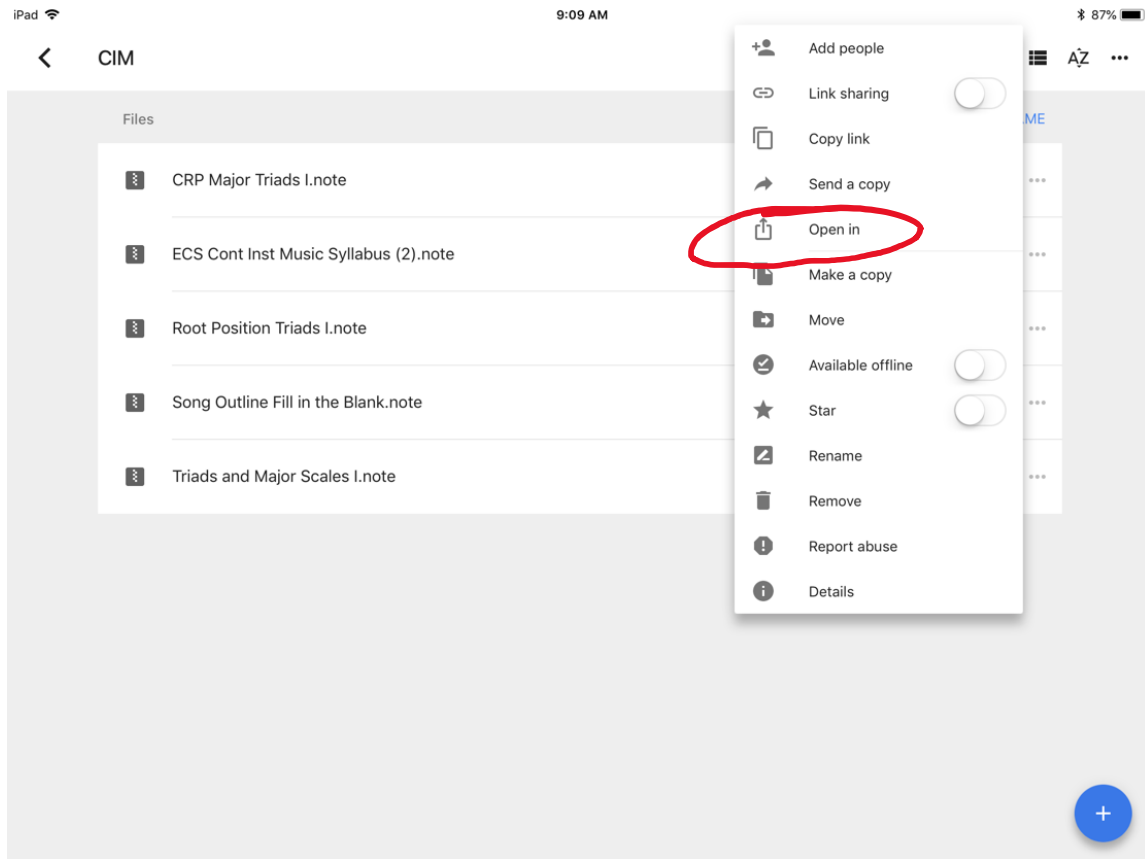

GETTING NOTES FROM GOOGLE DRIVE

- 1) Open Google Drive on your iPad and search for your Notability Notes (located in your Notability Folder).
- 2) Your Subjects will be listed as separate folders, so click into each folder to view your notes.
- 3) Select a note and press More (the 3 dots ...)

4) Select Open in

5) Then select Notability from your list of apps and import your note.
